

The CRA Does More Harm than Good

RED ALERT FOR NET NEUTRALITY
IS A RED HERRING. 

It's time for Congress to pass **permanent, modern**
and **fair** legislation for **ALL** internet companies.

Red alert for #netneutrality? More like a red herring. Reinstating #TitleII regulations on 21st century broadband service distracts from the harder work of enacting modern legislation that delivers consistent safeguards across the online world.

WHY DOES THE
NET NEUTRALITY CRA LET 
INTERNET GIANTS **OFF THE HOOK?**

It's time for Congress to pass **permanent, modern**
and **fair** legislation for **ALL** internet companies.

Why does the Senate #netneutrality CRA let the most powerful online players off the hook? Consumers deserve one set of modern protections across their internet experience. It's time for Congress to act.
