

SAFETY ON THE LINE

America's broadband providers are committed to protecting consumers from illegal robocalls.

COORDINATE

USTelecom leads the Industry Traceback Group to convene the wireline, wireless, cable and wholesale industries to identify and expose bad actors

The time it takes to trace back illegal robocalls has been

reduced from
weeks to days

sometimes even hours

PROTECT

Providers employ leading-edge technology tools to

BLOCK | FILTER | CATEGORIZE

illegal robocalls

SHAKEN/STIR
call authentication
technologies

diminish
CALL
SPOOFING

COLLABORATE

Broadband providers collaborate with the Federal Communications Commission (FCC) and Federal Trade Commission (FTC) to stop scammers

The FCC fined illegal robocallers

- MORE THAN -

\$200M in 2018

The FTC's National Do Not Call Registry contains more than

235M
REGISTERED
PHONE NUMBERS
